

INTRODUCING SERVICES FOR
TOTAL MANAGEMENT OF
Web-Enabled - Student Information and Mgmt Systems

Manvish will install, manage and operate the package in your campus

Manvish eTech private limited announces the introduction of services in Campus automation management. Manvish provides total solutions and services based on our proven Web-eSIMS which can be securely accessible over the internet.

Manvish, a pioneer in web-enabled Student Information and management systems (Web-eSIMS) has experience of over 10 years in design and deployment of Student information and Management systems with installations in engineering and degree colleges, both private and government. The institution gains from Manvish's expertise in total campus automation with freedom from the pain of owning, maintenance, data-entry and management of day-to-day operations.

In our experience the biggest challenge faced by any Campus automation implementation is not just about which software to invest in, but is the continuous availability of on-line data, trained manpower, data updation and dynamic custom changes of features that are typical to the institution's operations and needs arising from time-to-time. Manvish understands this exactly and addresses these issues in a proposal that includes the complete management & running of Web-enabled Student information and management systems at the institution. Furthermore, the software package from Manvish is free of cost to use and the services are offered at very affordable costs.

We are ready with the necessary software package to start immediately.

What Manvish offers

How Institution benefits

- Manvish web-enabled SIMS software installed at Institution (*System & service details overleaf*).
- Manvish Web-eSIMS will be configured as per requirements and reports as defined by Institution.
- Manvish team will undertake complete responsibility to administer and manage day-to-day operations of the institutions' web-eSIMS software for the defined processes from admission through certification.
- Institution will provide :
 - a server with database
 - Static Ip for web-enabling
 - Necessary data as requested
- Manvish services will ensure that the software solution is always up-to-date and relevant data is available for the individual stake-holders of the institution.
- Customization of reports as per the institution's requirements.
- Data migration from any existing database.

- Manvish web-eSIMS software package is free of cost to use and ready to install. Institution automatically benefits from latest updates to software package.
- No need to appoint or train in-house systems-administration team.
- Web-eSIMS System can be installed immediately and go on-line in a very short time.
- Data always live and up-to-date. Support is a phone call away. Continuity of service ENSURED.
- Customized reports on request at no extra cost. Reports to University/Board as and when needed. Selective view also possible to permitted external viewers.
- Manpower resources and allocation taken care of as per situation demands.
- Institution's investment on existing database of information can be saved and used.

SALIENT - FEATURES

- Robust design, reliability established and proven.
- In use in engineering and degree colleges for over 6 years
- Scalable to any size of user and data traffic. In use by over 11000 users including staff, teachers, students, parents and mgmt.
- Automates all processes of any educational institution.
- Always on-line, real-time and web-accessible anytime, anywhere from any computer with standard browsers.
- VTU ready and Configurable to any form of Indian University or board system

<u>Web-eSIMS modules</u>	<u>Solutions and services offered</u>
Institution module	Configuration and creation of institution details with all rules and regulations
Admission Module	Web-access to application-form filling, Seat Matrix and fees structure management with respect to admission, Reports of Short-listed student list for approvals from Principal
Fees and dues management	Fees configuration, receipt generation, dues management, reports etc.,
Student Information	Approved admitted students database and stream/course allocation
Academic Module	Academic year, term days, timings, class rooms etc configuration
Time Table Module	Time-table formatting, View access provided for either user, class-room based or faculty based
Exam Automation Module	Complete automation of examination process from candidate eligibility, exam form acceptance, exam fees,late fee,etc., exam management to results entry. Exam reports(Forms-A,B)
Principal Module	Validation of all processes, approvals and task assignments. Super-user access of all of institution's functioning
Dean/HOD Module	Addition/creation of new branches/addition of new faculties and overall approvals of all permissions requested as per hierarchies.
Faculty Module	Attendance-entry /time-table/creation of special classes/Marks entry
University/Board Level Reports	University/Board mandatory reports generation
General/College level Reports	Institutional based reports, Fees/dues reports/attendance reports/ Student performance reports to parents.
Placement Module	Search and selection details of recruited students' information. Access to prospective employers for Campus recruitment.
Student Alumni Module	Passed-out students information
Parent Internet Access Module	Generation of passwords and ids. Web-access to all students and parents information regarding ward's progress and reports.

Manvish will offer its services on the following functions
